ZHANG Jinman

Email: Zjmweb0805@163.com

EDUCATION BACKGROUND

The University of Edinburgh, U.K. 09/2021-12/2022
MSc in Design and Digital Media with Merit (68/100)
Highlighted Coursework: Dynamic Web Design (74); Game Design Studio (69); Design, Entrepreneurship and Innovation (77)

Beijing Language and Culture University (BLCU), China 09/2017-07/2021
BEng in Digital Media Technology with 1st (86.8/100)
Highlighted Coursework: Human-Computer Interaction (85); Virtual Reality (88); Game Software Design & Development (84); Advanced Game Development Techniques (99); Digital Image Processing (95); Digital Media Synthesis (94); Computer Graphics (86); Machine Learning (97)

University of Birmingham, U.K. 09/2019-06/2020
BSc Exchange in Computer Science and Software Engineering with 1st (80.8/100)
Highlighted Coursework: LM Robot Vision (81); LI Software Engineering 1 (91); LH Artificial Intelligence (83); Introduction to Human-Computer Interaction (63)

RESEARCH AND PROJECT EXPERIENCES

Journey to Cultural Relics of Ancient China, MSc thesis, Edinburgh, U.K.
Individual work, Supervisor: David House 04/2022-08/2022

- Designed and implemented experimental studies assessing the effectiveness of interactive storytelling and 3D visualization on users' cognitive engagement and knowledge retention;
- Developed and tested custom engagement metrics, measuring user interaction, learning progress, and behavioral patterns to evaluate educational efficacy and user immersion;
- Applied qualitative analysis (interviews) and quantitative assessments (pre/post-tests, behavioral tracking) to triangulate findings on user experience and pedagogical effectiveness;
- Conducted mixed-method research to examine the impact of digital game-based learning (DGBL) on foreign language acquisition and cultural understanding, integrating experimental design, user analytics, and qualitative thematic analysis.

Fan economy and Digital Media, Coursework, Edinburgh,U.K.
Individual work, Supervisor: Richard Coyne *10*/2021-12/2021

- Conducted qualitative research through in-depth interviews with industry professionals and active fan participants to examine digital media strategies in the entertainment industry;
- Triangulated findings through case study analysis, digital content tracking, and social media data to evaluate the effectiveness of interactive marketing, livestreaming, and fan-driven commerce.

Everlasting Feelings, BEng thesis, Beijing, China
Individual work, Supervisor: Prof. Yingbin Liu *12*/2020-5/2021

- Conducted cultural heritage research on Feihualing, an ancient Chinese poetic game, analyzing its historical and literary significance in traditional Chinese social entertainment;
- Designed and developed a Unity-based digital adaptation of Feihualing, integrating AI-driven poetry battle mechanics to explore how interactive media can facilitate cultural transmission and engagement;
- Employed qualitative user research through playtesting, collecting data on engagement, usability, and cultural learning outcomes to evaluate the game's impact on traditional culture retention.

Ice Carnival Game Development, National University Student Innovation and Entrepreneurship Training Program, Beijing, China 09/2020-03/2021

Project Leader and Developer, Supervisor: Dr. Weihua An

- Conducted research on Digital Game-Based Learning (DGBL) to examine its role in enhancing sports knowledge dissemination, with a focus on improving engagement and motivation among non-traditional audiences;
- Designed and implemented experimental studies assessing the effectiveness of interactive mechanics in sports education, utilizing pre/post-tests, behavioral data analysis, and qualitative feedback.

PROFESSIONAL EXPERIENCES

New Oriental Education & Technology Group 01/2023-07/2024

Advanced Instructor, Beijing Teaching Department (Full-time)

- Served as the primary instructor for courses on game design, web development, VR narrative, immersive spatial installation, AR applications, and user experience, while actively engaging in AR/VR projects to deepen expertise and expand its application scope.

China Global Television Network (CGTN) 05/2021-06/2022

Intern - Financial News Department & Head of Little Red Book / Video Editing & Motion Graphics

- Managed content curation and multimedia production for Little Red Book, a popular Chinese social media platform, including motion graphics, video editing, and event poster design, while contributing to large-scale content collection events for "Chinese Hanfu."

COMPETITION EXPERIENCES

China Computer Design Competition by Organizing Committee (*Team Member)* 03/2021-09/2021

- Led core code development and authored competition papers, showcasing methodologies and innovations in the project. Gained hands-on experience in game-based learning and VR applications, winning the National Third Prize and Beijing First Prize in the Computer Design Competition.

Sustainable Future in the City: Student Competition 2019 (*Leader)* 10/2019-11/2019

- Developed a last-mile delivery solution for the Birmingham community, enhancing efficiency and accessibility for elderly and disabled residents. Proposed a sustainable business model integrating logistics and assistive technology, ensuring commercial and technical feasibility. Selected as one of the top 5 teams out of 113, securing investment opportunities from the university for further development.

EXTRACURRICULAR ACTIVITIES

Diary of Young Artists in 798 Art District Exhibition 06-07/2023

- My work “Interactive Video Installation about Cyber Violence” was exhibited.

BLCU Confucius Institute 03/2021-04/2021

- Photographer, responsible for video editing and shooting.

BLCU Psychological Association (*Activity Department Staff Member)* 09/2018-06/2019

- Co-organized the 1st Beijing Universities Psychological Drama Competition, now an annual event promoting mental health awareness through storytelling. Led and participated in community care projects and youth mental health programs, with a strong research focus on adolescent anxiety and depression through outreach and direct engagement.

HONORS AND AWARDS

- Third Prize in 2021 National Computer Design Competition, Frist Prize in Beijing Region
- Comprehensive Third-Class Scholarship 2019, Beijing Language and Culture University
- Outstanding Member 2019, BLCU Psychological Association
- Academic Scholarship 2018, Beijing Language and Culture University

LANGUAGE AND TECHNICAL SKILLS

Language Skills: IELTS 7 (L7.5, R8, W6.5, S6.5), Chinese(Native)

Programming Skills: Proficient in C, C#, C++, Python, HTML, CSS, Java, MATLAB, PHP

Software Skills: Proficient in Unity, Maya, Substance Painter, Pycharm, Phpstorm, Adobe Creative Suite, Live2d, Unreal, Touchdesigner
