EDUCATION BACKGROUND

Durham University, U.K. 09/2026

- **PHD Computer Science |** Virtual Reality
- Cultural Heritage Education

The University of Edinburgh, U.K. 09/2021-12/2022

- **Master of Science in Design and Digital Media |** Average Score: 68/100
- Highlighted Coursework: Dynamic Web Design, Game Design Studio

Beijing Language and Culture University (BLCU), China 09/2017-07/2021

- **Bachelor of Engineering in Digital Media Technology |** CGPA: 3.57/4.0
- Highlighted Coursework: Object-Oriented Programming in C++ (88); Game Software Design & Development (84); Advanced Game Development Techniques (99); Digital Image Processing (95); Digital Media Synthesis (94); Virtual Reality (88); Computer Graphics (86); Web Design Basics (90); Machine Learning (97); Operating Systems (85); Human-Computer Interaction (85)

University of Birmingham, U.K. 09/2019-06/2020

- **One-Year Exchange Program in Computer Science |** Average Score: 80.8/100
- Highlighted Coursework: LM Robot Vision; LI Software Engineering 2; LH Artificial Intelligence; Introduction to Human-Computer Interaction

PUBLICATION

Unity-based Chinese Digital Education Game: Journey to Cultural Relics of Ancient China

Independent First Author 05/2024

- Published at The 2nd International Conference on Interdisciplinary Humanities and Communication Studies (ICIHCS 2023)

Fan economy and digital media: How does Produce 101(China) utilize digital media to gain commercial benefit

Independent First Author 10/2023

ACADEMIC EXPERIENCES

Ice Carnival Game Development, National University Student Innovation and Entrepreneurship Training Program, Beijing 09/2020-03/2021

Project Leader and Developer, Under the Guidance of Dr. An Weihua

- Led the team in integrating the overall game, formulated the foundational game plan, and developed core game features.
- Gained an understanding of the educational and informative aspects of gaming, acquired valuable project experience, and enhanced work skills and programming capabilities.
- Awarded the National Third Prize and Beijing First Prize at the Computer Design Competition.

Game Algorithms in Design Research Program, Shanghai 07/2025-09/2025

Course TA & Research Assistant, Under Prof. Nace, CMU

- Assisted in developing and refining teaching materials that illustrate algorithmic concepts through game-based case studies, enhancing students' understanding of complex computational strategies.
- Reviewed and provided in-depth feedback on student survey papers, focusing on the clarity of algorithm explanations and relevance to game design applications.

HCI in Design Research Program, Online 09/2025-11/2025

Course TA & Research Assistant, Under Prof. Lorie, Dartmouth

- Assisted students in developing individual practice-based HCI research projects, offering guidance on UX design methods, prototype iteration, and interaction evaluation, ensuring a coherent link between design decisions and research aims.

- Provided structured feedback on research writing, supporting students in shaping clear argumentation, organizing literature and methodology sections, and articulating design outcomes within a rigorous academic framework.

WORK EXPERIENCES

New Oriental Education & Technology Group 01/2023-07/2024

Advanced Instructor, Beijing Teaching Department (Full-time)

- Regularly engaged in teaching subjects encompassing game design, web development, VR narrative, immersive spatial installation, AR application and user experience projects, taking on the primary role of an instructor;
- Delved deeper into the domain of AR/VR through active involvement in numerous themed projects, enhancing the understanding of its application scope;
- Consistently embraced fresh perspectives and ideas throughout the teaching journey, which not only solidified existing expertise but also illuminated newer areas in the realm of AR/VR and its potential.

China Global Television Network (CGTN) 05/2021-06/2022

Intern - Financial News Department & Head of Little Red Book / Video Editing & Motion Graphics

- Selected themes and operated Little Red Book, a popular Chinese social media platform; produced motion graphics, video editing, and designing crucial event posters.
- Contributed to the planning and design aspects of large-scale content collection events organized by "Chinese Hanfu";
- Leveraged expertise in digital media theories and practices, especially pertaining to poster creation, motion graphics, and video production.

NetEase, Inc. 07/2020-11/2020

Motion Design Intern, NetEase Culture and Creativity

- Predominantly focused on video editing and motion graphics creation, playing a pivotal role in enhancing the visual appeal and communicative effectiveness of media content;
- Assisted in the curation and organization of daily content topics, ensuring that content remained fresh, relevant, and aligned with the platform's goals and audience preferences;
- Acquired comprehensive insights into the operations of new media platforms, equipping myself with valuable skills and knowledge that can be beneficially applied in future professional ventures.

COMPETITION EXPERIENCES

China Computer Design Competition by Organizing Committee 03/2021-09/2021

Team Member

- Led the development of core code, playing a crucial role in the overall game integration;
- Authored relevant papers for the competition submission, showcasing the methodologies and innovations deployed in the project;
- Acquired enhanced project experience and improved practical operation skills, equipping for hands-on application development in the future;
- Competed against university students nationwide, winning the National Third Prize and the First Prize in Beijing.

Women's Team Table Tennis Beijing Municipal-Level Competition 05/2019

Team Member

- Actively participated in the group competition, playing a significant role in the team's performance;
- Gained deeper insights into the importance of teamwork and collaboration, enhancing interpersonal skills crucial for future endeavors;
- Competed against other capital universities' teams, ultimately securing the Seventh Place in the Women's Team Table Tennis Championship.

EXTRACURRICULAR ACTIVITIES

Diary of Young Artists in 798 Art District Exhibition 06/2023

- My work **"Interactive Video Installation about Cyber Violence"** was exhibited.

BLCU Confucius Institute 03/2021-04/2021

- Photographer**,** responsible for video editing and shooting.

BLCU Psychological Association 09/2018-06/2019

Activity Department Staff Member

- Collaboratively led the first psychological drama competition among Beijing universities, overseeing its organization and execution;
- Served as a lead figure in the props section, ensuring essential tools and settings for effective storytelling;
- Explored the parallels between psychological drama narratives and digital media.

HONORS AND AWARDS

- **Third Prize in 2021 National Computer Design Competition, Frist Prize** in Beijing Region
- **Second Prize (Top 1%) in Sustainable Future in the City: Student Competition 2019,** *University of Birmingham* (Business Competition, one of the 5 teams, out of 113 teams in 2019)
- **Comprehensive Third-Class Scholarship 2019,** *Beijing Language and Culture University*
- **Outstanding Member 2019**, *BLCU Psychological Association*
- **Academic Scholarship 2018**, *Beijing Language and Culture University*

OTHER INFORMATION

- **Standardized Tests:** IELTS 7 (L7.5, R8, W6.5, S6.5) | TEM8 | TEM4 (Excellent)
- **Programming Skills:** Proficient in C, C#, C++, Python, HTML, CSS, Java, MATLAB, PHP
- **Software Skills:** Proficient in Unity, Maya, Substance Painter, Pycharm, Phpstorm, Pr, Ae, Au, Live2d, Unreal, Touchdesigner
